

Statewide Contracts Overview - October 2019

As of 10/31/19

Prepared by the Division of Administration, Office of State Procurement (OSP)

This report summarizes the total population of active State contracts on a monthly basis, split out by contract type, with corresponding descriptions.

In order to provide a better representation of the total count of contracts between suppliers and the State of Louisiana, certain LaGov document types that appear on contract reports will be separated from the total number of active contracts because they are entered into LaGov's contract module as a payment mechanism. The LaGov document types that will be separated on future reports are Miscellaneous Contracts (MIS), Non-Contract Payments (NCP), and cooperative endeavor agreements (CEA) assigned to Facility Planning and Control (FPC).

The MIS document type largely represents LDH disbursements for family subsidies and Economic Development (LED) STEP grant disbursements. Another small subset of the MIS document type captures payments between Coastal Protection and Restoration Authority (CPRA) and local governmental entities. Non-Contract Payments represent other payments between LDH, DOTD, and DPS between local governments and electric companies. The FPC CEAs are largely bond payments between the State and other governmental entities.

The separation of these LaGov document types will provide a clearer picture of the total count of contracts between the State of Louisiana and its suppliers.
